## HE SAYS THEY WERE "FISH STORIES."

ITNESS IN THE WEST WASHINGTON MARKED PENCES WITH DE LANCEY NICOLL-HE

WANTED TO "BOOM" THINGS. sioners Holahan and Barker, of the Bureau & Accounts, continued their examination of witnesses erday in relation to the new West Washington Murket charges. Acting Superintendent Graham Mc-Adam's testimony was ended. In answer to Mr. Nicoll's questions, the witness said that a number of ld standholders had been refused accommodations in ne new market, while new men had been given stands ere. Commissioner Holahan drew from Mr. McAdam of the reasons which governed the Conof into the market. To Counsellor Wickes Mr cAdam repeated the statement that the Controller had favored New-Yorkers as a rule and had earnestly sought to abolish sub-letting. He testified that no

North River Fish and Game Company, who had no stands in the old market, but had succeeded in getting five in the new one. He said that James J. Kelso and Bookkeeper Bard, of the Controller's office, had arranged things for him. Mr. Philipsen admitted that he had told different persons that his stands had cost him large sums of money. None of these stories, how-

ney had been paid to his knowledge for the transfer

What," exclaimed De Lancey Nicoll. "Were they

'All lies," placidly returned the witness. "L-1-6-5-

en said he had told these tales to boom the "Just the same way," he went on, ad-Mr. Nicoll, "as your brother did when he dressing Mr. Nicoll, "as your brother did when he came to me for employment once. He told me that he could control the business of the Stewart estate." Mr. Nicoll said that the witness must be mistaken about his brother, but Mr. Philipsen would not admit that there was any possibility of a mistake. After long and unremunerative questioning to find out to whom he told his "lies." Mr. Nicoll asked him if he had paid my money for his stand. "Yes, I did," he answered,
"If you must come down to hard facts. The legal fee is \$1 50. I believe, for a permit. I gave the clerk a 25 note and told him to keep the change, fust as you do (to Mr. Nicoll) with the hack-driver when he gets you home at 3 a. m. I have lived next door to

Henry Maurer, Deputy Collector of City Revenue, who kept the market register and made out the permits, told how the books were kept and the permits issued. All transfers of stands, he said, were made by the Controller's own order. The witness admitted the Controller's own order. The witness admitted stiling the "change" referred to by Mr. Philipsen, the st witness, but said that it was an isolated case. Ex-Assemblyman Martin Steljes, of the firm of Buck Steljes, liquor dealers, said that he and his partner

oth lived in Hoboken. The firm had held seven ands in the old market which they had acquired stands in the old market which they had acquired from advancing money to former holders who had failed in business. These stands they had since been subletting. They had represented to Controller Myers that if they were refused stands in the new market it would work a great hardship. He considered that his loss would have been from \$7,000 to \$10,000. The Controller finally awarded them three stands in the new market. He did not fearly that he expected to sublet these stands. Mr. Stelles said that he did not pay one cent for his accommodations in the new market. The hearing was adjourned until 10 o'clock a. m. on Monday.

ARABS DETAINED AT CASTLE GARDEN. . Among the passengers on the steamship Germania, thich arrived yesterday, were seven Arabs, who came here for the purpose of peddling. They come from Bayreuth, in Syria. They have sufficient money to support themselves for some time, and will probably be allowed to land, although they are temporarily detained at Castle Garden.

### GRAIN AND PRODUCE MARKETS.

FEATURES OF NEW-YORK DEALINGS. No guide to the future was furnished by the spot wheat market yesterday. Only four loads were sold for milling purposes and the close was firm only in response to the faint rally in options. The deliveries of wheat on contract were heavy, amounting to fiftyresponse to the faint rally in options. The deliveries of wheat on contract were heavy, amounting to fifty five to sixty loads, but the light deliveries in Chicago tended to offset this influence. In fact, the local option market did not co-operate with Chicago and was largely controlled by active switching transactions in the early hours. The total dealings slightly exceeded 4,000,000 bushels. May ranged from 16.5-8 at the opening to 96.3-8 cents and closed at 96.7-8 at the opening to 96.3-8 cents and closed at 96.7-8 at the opening to 96.3-8 cents and closed at 96.7-8 at the opening to 96.3-8 cents and closed at 96.7-8 at the opening to 96.3-8 cents and closed at 96.7-8 at about the same net decline as follows; February, 63.1-4; March, 94.3-8; April, 95.5-8; June, 96.7-8; and July, 93.3-4 cents. The deliveries in corn on contract amounted to 1,500,000 bushels, but they were well taken and consequently failed to depress the market. Spot lots were 14.21-2 cent better and nearly 100,000 bushels were taken for export. A more active movement occurred in the options, but without important changes. February closed up 1-3 cent at 44, but the other months were unchanged at 44.3-4 for March, 45 for April and May, and 44.3-4 cents for June. There were heavy deliveries in oats, but they didn't dopress the market. Cash goods.

44 3-4 for March, 45 for April and May, and 44 3-4 cents for June. There were heavy deliveries in oats, but they didn't depress the market, Cash goods were 1-8-21-4 cent higher, and there was a brisk movement in options which left February unchanged at 31 7-8, but March at 32 1-3 and May at 32 5-8 cents, 1-8 cent higher. There was no cash movement in lard. The options are quoted 620 points lower as follows: February and March, 87 26; April, 87 27; May, \$7 29; June and July, 87 30; August, 87 32.

The receipts of grain and flour reported yesterday at New-York, Philadelphia, Baltimore and Boston were as follows: Wheat, 7,353 bushels; corn, 200,542 bushels; joats, 71,231 bushels; total grain, 279,133 bushels; flour, 22,752 packages. At Chicago, Milwarkee and St. Louis the arrivals were: Wheat, 26,469 bushels; corn, 283,147 bushels; flour, 13,593 barrels.

# THE TRADE IN CHICAGO.

THE TRADE IN CHICAGO.

Chicago, Feb. 1 (Special).—This being delivery day, all the outside markets were going before Chicago opened. They started weak and Chicago simply "tailed" after them. From 97 cents, where May wheat started, the price got as low as 96 1-2. It railied to 98, heal-tasted for an hour between 97 and 98, and finally closed very near the top, at 97 3-4#87 7-8. Although Hutch-linson wass credited with buying, the pit transactions were at no time peculiarly significant. Prices were largely influenced by statistics. One of the early influences was the announcement of a decrease for the menths of 400,000 bushels in the Liverpool stock; the Chicago flour stock decreased 10,000 barrels for the month; there was a fairly large export movement from the Atlantic ports, the wheat and flour clearing being equivalent to 112,000 bushels; the purchase of 60,000 bushels by miliers was as influential as any other one thing. George Seaverne soid 28,000 bushels No. 3 winter at 67, and Rosenbaum Bros. made a sale of about an equal quantity. The price early was undoubtedly somewhat affected by those "ugly rumors" New-York had on its mind Thurslay evening. For the first time in a long while the buying of corn was sufficient to take, without a retrogression, the offerings at 37 cents. Oats were as dull as ever. Provisions had another considerable break The hogs received here during January, according to the ctock yards statistics, average 35 pounds heavier than the hogs received during January, according to the same month last year. These ligures were particularly significant to the packers.

On the curb May wheat closed at 97 3-4.

# THE PETROLEUM MARKET.

NEWS FROM THE FIELD AND RANGE OF PRICES. The crude of market declined yesterday on a small volume of business. The favorable developits influence and in the absence of organized opposition the bear party sold moderately but with effect. The the bear party sold moderately but with effect. The Lima oil advocates are apparently growing more courageous and watson & Gibson issued the following builetin, intended probably to imply that the competition of Onto with Pennsylvania oil was a factor in the future value of the latter products:

"We understand that the Standard has just purchased the property of the Amazon Oil Company which owes \$,000 acres of oil bearing lands in Ohlo. The Standard is buying up all the Ohlo oil territory it can lay its hands on. The daily production in Ohlo is searly \$6,000 bls." The producers show no disposition to take an interest in the speculation and the public carnot be expected to raily to its support whole every interest seems to be allied against encouraging a rise. The market closed at shout lowest figures but too dull to possess significance.

The range of prices and the total dealings were as follows: Stock Exchange. Consolidated.

The foreign exchanges were dull for to-morrow's steamers, and rates were easy at quotations for business as follows: Bankers' bills at \$4 86 1-4 and \$4 85 1-4 respectively for long and short sterling; French franes at 5.20 5-8 and 5.16 7-8; reichmarks at 95 3-8 and 95 7-8, and guilders at 40 and 40 1-2.

In London British consols ruled strong and closed higher at 98 15-16 and 99 1-8 respectively

10 and 40 1-2.

In London British consols ruled strong and closed higher at 98 15-16 and 99 1-8 respectively for money and account. In the open market money ruled at 1 1-2a2 per cent between bankers and at 2 per cent for discount of bankers' bills. Bar silver was off to 42 1-2d, per ounce English standard. American railways opened higher than last evening's home quotations, and ruled higher all day. At Paris French 3 per cents rose to 83.37 1-2.

Maitland, Phelps & Co. advertise for public subscriptions to \$2,500,000 East Tennessee, Virginia and Georgia Hailway 5 per cent gold bonds. At the subscription price of 90 per cent they yield the investor over 5 1-2 per cent gold bonds. At the subscription price of 90 per cent they yield the investor over 5 1-2 per cent per annum. The issue is limited to \$6,000 per mile, and the promoters, in view of the company's large earnings, consider the security beyond a doubt. Dividends amounting to 5 per cent were paid last year on the company's \$11,900,000 first preferred stock.
